

SURVIVING THE SHOT

LAW ENFORCEMENT / MILITARY / ARMED SECURITY PROFESSIONALS

Violent attacks against law-enforcement officers and armed security professionals are a reality.

By combining sound tactics with basic lifesaving tactical-medical interventions, we bring the training into realistic scenarios that mirror what officers may face on the street.

This is common-sense, hands-on training. Students apply their skills under stress during officer-down scenarios. Run the drill. Break it. Fix it. Repeat it until competency is achieved.

COURSE HIGHLIGHTS

- Building-clearing tactics
- Multiple scenario-based officer-down stress-inoculation drills
- Knock-and-talk gone wrong
- Traffic stop gone bad
- Downed-officer extraction from a fatal funnel
- Load and go
- Force-on-force
- Hands-on tactical medicine under stress
- Ground fighting and striking with weapons retention
- Live actors for realism

MEDICAL & EXTRACTION SKILLS

- Tourniquet application under duress
- Wound packing
- Pressure dressings
- Chest seals
- Treatment of gunshot, stabbing and blast injuries
- Using cover and staying in the fight
- Drags and carries

INSTRUCTOR CADRE

The Silverback cadre includes combat veterans, current and retired law-enforcement officers, SWAT/SRT operators, tactical medics, defensive-tactics instructors, experienced fighters and medical professionals.

MEET OUR INSTRUCTORS & SMES
